

Upsurge In Bogus Property And Gardening Cold Callers

Nottinghamshire County Council Trading Standards Service has received an unusually large number of reports in recent days concerning bogus property and garden services. We believe this may be linked to the recent unseasonable weather. Residents are being cold called either at the door or by telephone by people offering to repair their property or carry out gardening work.

Callers are targeting the elderly and adults at risk but may call on anyone.

Trading Standards recommend that you never agree to work being carried out by someone who cold calls, either by phone or at the door.

If you are considering having work carried out on your property make sure that you get three quotes from reputable traders. To find local traders who have been approved by Nottinghamshire County Council Trading Standards please visit www.checkatrade.com
