

## New Service For Reporting Suspicious Emails

The National Cyber Security Council (NCSC) have launched a new reporting service for suspicious emails.

Anyone can now forward suspicious emails to [report@phishing.gov.uk](mailto:report@phishing.gov.uk)

The service has been co-developed with the City of London Police. As well as taking down malicious sites, it will also help by identifying new patterns in online offending.

For further information:

<https://www.ncsc.gov.uk/information/report-suspicious-emails>

If you think you have been a victim of fraud or a cyber crime, please contact Action Fraud on 0300 123 2040 or contact [www.actionfraud.police.uk](http://www.actionfraud.police.uk).
